

THE MORNING APPEAL.

FRIDAY, JANUARY 1

THE VOTE OF THE PEOPLE.

The New York World of the 25th inst. gives the popular vote of the States which aggregates as follows:

McKinley	7,096,333
Bryan	6,523,255
Palmer	130,992
Prohibition	128,094
Socialist Labor	34,088
Scattering	24,145

Total vote.....13,937,162

McKinley's plurality..... 573,378

McKinley's majority..... 556,104

PERCENTAGES.

McKinley	.5098
Bryan	.4681
Palmer	.0094
Prohibition	.0091
Socialist Labor	.0024
Scattering	.0017

1.0000

The Bryan and Watson vote—153,043 and the Silver Prohibition—13,264, cast for Bryan, the APPEAL adds to the Bryan vote, the World giving them separately.

The percentages are interesting. McKinley's majority is less than one per cent. of the total vote. Outside the vote of Pennsylvania, he is in a minority of over 50,000 votes in the country.

Old Palmer received less than one per cent of the total vote! The refusal of more than six and a half million Bryan voters to allow this fraction of one per cent. to reorganize the Democratic party, suggests the unreasonableness of the "eleven obstinate jury-men."

THE TEACHERS INSTITUTE.

It is in Very Successful Operation at Elko.

After the people of Elko discovered that they had made a little slip in not receiving the visiting school mar'ns properly, they laid themselves out to atone for their mistake by showering all sorts of attention to them.

The school mar'ns say they were never so overwhelmed with courtesy in their lives, and it is rumored that several of them had received proposals of marriage from solid citizens of Elko county. The Independent publishes the following Tuesday morning session which opened with roll call showing an attendance of ninety-six, eighty-eight of whom are teachers. This attendance exceeds expectations, is a guarantee of the success of the institute and settles the question of the alternating sessions of the institute between the eastern and western part of the State. It is a triumph for State Superintendent Cutting. In addition to the list of names published in yesterday's issue, the following teachers arrived last night:

Douglas county:—Theodore Clark. Storey:—Orvis Ring.

Washoe:—Victor Dornberger, John Edward Bray.

Elko:—Miss Birdie Drown, Rose McMillen, Ida Daken, Josephine Sullivan, M. Tirney, Rose McLaughlin, C. McCarthy.

State University:—Dr. J. E. Stubbs, Dr. W. McMiller, Mrs. Mary W. Emery, Mrs. J. E. Stubbs, Mrs. W. McN. Miller, Phillip Emery.

Humboldt:—Miss Rose Gardner.

Eureka:—A. L. Dornberger, Louis Rodgers, Misses Annie Williams, Tessie Moriarity, Minnie Mount, Allie Walterspiel, Ethel Knowles, Mabel Hayward, Jennie McCoy, and A. E. Kaye.

Lander:—Bessie Taylor.

Mrs. E. Reinhart of Elko favored the Institute with a vocal solo which was much appreciated as evidenced by the applause which followed.

Prof. D. R. Augsburg again took up the subject of drawing. The chief value of the morning's instruction was the application in drawing to the trade, profession of art. Models were placed in the hands of all the teachers and proved of much assistance in making instructions plain, together with the benefit derived from the use of the model. Professor Augsburg is popular and a success.

Mrs. A. L. Layton, special teacher in the Reno public school and the University, in music, followed with that subject. In her introductory remarks she took the ground that all people can learn to sing, success being commensurated with natural endowments. Her illustration of the methods of teaching music were as interesting as instructive and will lead to good results. C. T. Nesse exemplified the movements and primary principles of penmanship, and his method of teaching them.

Adulterated Catsup.

"Catsup" as sold in the local market is a dangerous compound. Prof. Wrenzel made a report to that effect this morning at a meeting of the Board of Health. The report showed that he had analyzed twenty-three samples of tomato catsup, so-called, and found that twenty-one specimens had been adulterated with salicylic acid. The samples, he said, were taken from all the brands in the market, two were adulterated with boracic acid. There was also formaline in one and coal tar colors in twelve. Dr. Morse moved that the Chief Food Inspector be directed to cause the arrest of the persons who had sold the noxious compound.—Daily R. post.

Nevada is flooded with the sort of compounds made in California. If some one started a catsup establishment in Nevada and manufactured a pure article, it could not be sold in Nevada half as readily as the adulterated article from California.

A Woman's Story.

Key West, Dec. 31.—The wife of the insurgent Colonel Mirabel arrived here by the steamer Olivette from Havana last night, enroute to Tampa. She claims to have come direct from the camps of the insurgents, where she had been attending Antonio Maceo. She declares that the insurgent leader is not dead, but was betrayed and shot by Dr. Zertucha in the face, the bullet seriously wounding him. Senora Mirabel says that four doctor are in constant attendance on Maceo and are now satisfied that he will recover, but that it will be some time before he will be able to again assume command of his forces.

James F. Kennedy of Kansas City, was arrested yesterday for robbing the Chicago and Alton express at Blue Cut, Mo., last week.

The Chimary Episode.

When a man of a cold disposition marries a woman with a warm one, the pair make a sorry mess of married life.

Prince Caramac de Chimary married Miss Clara Ward of Detroit and then spent most of his time at his club. His wife resented his lack of attention by eloping with Jancesi Rigo, a Hungarian Gipsy, who was more attentive than the Prince.

Recently the Princess Chimary was interviewed by members of the press, to whom she talked quite freely.

The Princess said to the newspapermen that she would marry Jancesi Rigo, her gypsy lover. She showed to the reporters on the upper part of her arm a tattooed serpent surmounted with the name Jancesi, and above it the letter "C," the whole design being topped by a ducal crown.

Hundreds of people wait outside the hotel where the pair are staying to see the runaway Princess, and special police are needed to keep them in order.

When she appears at the theatre adorned with splendid diamonds and the gypsy Rigo at her side, the performers on the stage are entirely ignored, so great is the curiosity aroused. Rigo having secured the woman is not spending his time at the club like his predecessor in interest. When he's wanted he's around.

McKinley's Cabinet.

The following is announced to be the President's cabinet, with possibly one or two exceptions, as it will be officially announced:

Secretary of State—John Sherman of Ohio.

Secretary of the Treasury—Nelson Dingley of Maine.

Secretary of War—Ex Governor Merriam of Minnesota.

Secretary of the Navy—Cornelius N. Bliss of New York.

Attorney General—Nathan Goff of West Virginia.

Postmaster General—Henry C. Payne of Wisconsin.

Secretary of Agriculture—Judge Wayne of California.

Had to be Amputated.

Mr. Kirchner, of the Arlington House, who went to San Francisco a few days ago to be treated for blood poison, had his foot amputated yesterday. The trouble began with a sore on his foot caused by cutting a corn. Blood poison set in and now Mr. Kirchner, who is quite an old man, is obliged to begin the New Year with one foot.

Tough on the Dog.

J. Honie—Did you know that old Pat Mulligan was bit by a mad dog?

Jo—Yes, did he go mad too?

J. Honie—Naw, but the dog died with the jim jams in less than an hour.

Randsburg Progress.

A nugget worth \$14.30 was picked up on the road.

The camp contains representatives of many branches of business.

Coal is the principal fuel used. It is worth \$15 a ton.

Prices of all kinds of store goods are remarkably low for a mining camp—down to nearly a Los Angeles basis.

Some fine specimens of galena have been found.

The Tulare Times counted 127 tents in the camp, not including those in side gulches.

November 20th the first stage was run over a new road from Mojave to Randsburg, making the trip in five hours. The new road is 25 miles long as against 54 on the one heretofore used. The fare is \$6 for the round trip.

Suit For a Pin.

Frank Golden has brought suit against Miss Louise Rinckle of this city for a pin valued at \$50. The case comes up next week in the justice court. The defendant refuses to pay for the pin on the ground that it was a gift from Mr. Golden.

Nate Hummel of the Dispatch is cutting a great swarth among the school mar'ns at Elko.

The Republicans are cooking up another international free coinage scheme. The same old flim flam that they have worked for years. One really wonders if such clap-trap will still be taken at full weight by the voters.

Judge Coffee decided in the case of Mrs. Kohler vs. Frohling that personal creditors have precedence over partnership creditors.
